**“Bookings now open for the ‘It’s Time to Get Back & Celebrate!’ retreat, 20<sup>th</sup> August to 26<sup>th</sup> August 2023”**

**You more than deserve to get away and discover the treasures of joy and tranquility that lay beneath the chaos and noise of daily life.**

It’s time to quieten the rush and turbulence of your noisy and peace robbing mind.

This retreat is the perfect opportunity to unwind and let go. **A powerful way to release tension, feeling overwhelmed or simply recharge is to physically travel to a place of inspiration, beauty and harmony.**

You are spoilt in this week, it is all about you! **A deeply restful week that flows with body awareness, body treatments, rituals and gentleness. It is in this precious space that you are invited to ‘tune out’ so you can ‘tune in’.** We cannot ask or want anything new to come into our life if we are full of unwanted clutter. We need to make room for the things we really, really want to flow into our lives.

**Your life is far too precious to be rushed through and even worse, to be endured.** It is time to slow down, pause and even stop, so you can gather the strength, courage and insights you need to live a life in alignment with your highest ideals and true peaceful self.

**These simple but powerful practices of yoga, meditation, personal inquiry, allow an awareness to come in and ‘show’ us how we are living off the mat. In this space, we have the opportunity to observe our life patterns and daily behaviours that can create mayhem or space in our lives.**

It is in this space we learn to appreciate our body's wisdom, it's language. **This retreat supports you in deepening your awareness in practicing love, self-love, appreciation, gratitude and nurturing in your everyday life, not only 'on the mat'**. It becomes an opportunity for our body, mind and heart to re-connect and once again align.

**This retreat is all about you. This is your time.** To breath. To pause. To revive and restore.

The amazing beauty of this retreat is that you can enter a quiet space that you can find too challenging at home, giving you the opportunity to unplug from your daily pressures. **On this retreat, you are guided through yoga, meditation, and self-inquiry practices, to soothe your soul, rejuvenate and renew. You can enter a space of deep healing, of reflection, breakthroughs, and peace.** You can shift your life in ways that are powerful and profound. With new awareness, you will naturally want to nourish and balance your life in all ways, **the most profound journey we can take is the internal one. This retreat is heart opening, soul stirring and life changing.**
